Research

Revisiting Fundamentals of the European Gas Market: The Role of Supply Substitution
Working paper, 2026 · SSRN · Draft

- Bayesian SVAR with sign and elasticity restrictions that separates pipeline gas from LNG in the European gas market (monthly, 2014–2026).
- Both supply channels respond weakly to the price; storage demand explains close to half of the variance of the gas price.
- Counterfactuals of the 2022 crisis: demand adjustment contained the price about three times as much as LNG did.

What Do Fed Funds Futures Price?
Working paper, 2026 · SSRN

- Compares futures-implied FOMC paths with prediction-market (Kalshi) odds and non-traded surveys: the futures are the risk-neutral leg.
- Three-factor affine model that delivers the risk premium daily at every horizon and splits FOMC-day moves into expectation and premium repricing.

Nonlinear Price Dynamics in Gas and Electricity Markets
Work in progress, with Francesco Ravazzolo and Simone Giannerini

- Smooth-transition model for the 24 hourly day-ahead prices in Spain in which gas-to-power pass-through depends on forecast residual demand.
- Robust bootstrap linearity tests; density-forecast gains over linear VARX benchmarks.

New Measures of Market-Based Monetary Policy Surprises
Work in progress

- High-frequency monetary policy surprises from prediction-market repricing around FOMC decisions, speeches and minutes.

Research Visits

Visiting PhD Student — Sep. 2026 – Dec. 2026
Free University of Bozen-Bolzano (unibz). Host: Francesco Ravazzolo — *Bolzano, Italy*

Conferences and Presentations

3rd BI–LUISS–unibz PhD Workshop — Bolzano, Italy, Oct. 2026
International Association for Applied Econometrics (IAAE) Annual Conference — Lisbon, Portugal, Jun. 2026
International Conference on Macroeconomic Analysis and International Finance (ICMAIF), also discussant — Rethymno, Greece, May 2026
Annual Conference on Economic Analysis, University of Alicante — Alicante, Spain, May 2026

Experience

Teaching Assistant — 2022 – present
University of Alicante, Department of Fundamentos del Análisis Económico — *Alicante, Spain*

- Undergraduate: Introduction to Statistics, Introduction to Macroeconomics, Mathematics I, Mathematics II.
- Graduate (instructor: M. Dolores Collado): Statistics, Econometrics I.

Data Replicator — 2025 – present
Journal of the European Economic Association — *Remote*

- Check data citations, run the replication packages of accepted papers and reproduce the results of the manuscript.

Education

PhD in Economics — Sep. 2023 – present
University of Alicante. Supervisor: Iván Payá — *Alicante, Spain*

- Research fields: applied macroeconomics, econometrics, time series, monetary policy, energy economics.

Master in Quantitative Economics Sep. 2021 – Jun. 2023
University of Alicante *Alicante, Spain*

- Ranked first in class (GPA 8.07/10).
- Research-oriented program: core graduate courses in the first year and specialized electives in the second.
- Thesis: Impact of natural gas and crude oil shocks on European stock returns.

Bachelor in Economics Sep. 2017 – Jun. 2021
Complutense University of Madrid *Madrid, Spain*

- Honors in Advanced Macroeconomics, International Finance, Regulation Economics, Macroeconomics III, Microeconomics II and the Bachelor Thesis. Specialization in Economic Analysis.

Additional Training

Bayesian Analysis of Structural VAR Models (Christiane Baumeister), Lancaster University Jun. 2026
Energy and Commodity Prices: Macroeconomic Effects and Policy Implications (Hilde C. Bjørnland), EABCN Training School Apr. 2026
Causal Inference with VARs (Giovanni Ricco), EABCN Training School Nov. 2025
Financial Econometrics (Dante Amengual), University of Alicante Feb. 2025
Bayesian Models and Forecasting (M. Banbura, R. Casarin, M. Ciccarelli, F. Ravazzolo), SIdE, Venice Aug. 2024

Skills

Programming MATLAB, Python, R, Stata, SQL
Tools Git/GitHub, LaTeX, Notion, Microsoft Office
Languages Spanish (native), English (fluent), Italian (beginner), Polish (beginner)
